

For this assignment I added email notifications for a simple user verification system. When a user signs up, they are sent an email with a link to the `/verify/{user_id}` route

From here the user can set up their password. If the user has a password setup they are then verified and the admin's email will be sent a notification and the `/admin-inbox` route will be updated.

The files you'll want to look at in the project regarding the email notification system are:

- `/templates/customersVerification.html`
- `/templates/viewInbox.html`
- `/services/email_service.py`
- `/routes/store.py`
- `/models/customers.py`
- `/models/database.py`

Images below to show what the project looks like currently:

When registering a new user to test the feature, please be sure to use a real email address:

The screenshot shows the 'Set Up Your Account Password' form on the IoT Project - Smart Store website. The form is centered on a grey background. It has a title 'Set Up Your Account Password' and two input fields: 'New Password' and 'Confirm Password'. Below the input fields is a blue button labeled 'Set Password' and a link labeled 'Back to Home'.

Upon valid password setup,
the customer's account will be verified and an email is sent to administration:

You can view the admin notifications from the email or directly on the site at /admin-inbox

The image shows a screenshot of an email client interface at the top and a web application interface below it. The email client shows an email from 'project.smartstore@gmail.com' with the subject 'New Customer Verified!'. The email body contains the text: 'New Customer Verified!', 'Name: sabrina robinson', and 'Email: [redacted]'. Below the email are buttons for 'Reply', 'Forward', and a circular icon. The web application interface has a blue header with 'IoT Project - Smart Store' on the left and 'Welcome Anon' and 'Please login' on the right. The main content area is titled 'Store Inbox' and displays two identical notification cards. Each card has the subject 'New Customer Verified!', the sender 'From: project.smartstore@gmail.com', and the message 'Customer sabrina robinson: [redacted] has just verified their account.' The footer of the web application shows '© IoT Project' on the left and 'Home' and 'Register Inbox' on the right.
